DRDO lab to hold robotics expo

R&DE(E), which is based in Dighi in Pune, will initially conduct the zonal level competitions at six zonal centres (Bengaluru, Pune, Tezpur, Jodhpur, New Delhi and Kolkata) in 2018 to facilitate wide participation from engineering students.

As a part of Defence Research and Development Organisation's (DRDO) diamond jubilee celebrations, Research and Development Establishment, Engineers, R&DE(E), a key DRDO laboratory in Pune engaged in developing state-of-the-art defence systems, is organising a Robotics and Unmanned Systems Exposition (DRUSE) for students from across the country.

R&DE(E), which is based in Dighi in Pune, will initially conduct the zonal level competitions at six zonal centres (Bengaluru, Pune, Tezpur, Jodhpur, New Delhi and Kolkata) between March 24 and April 15 in 2018 to facilitate wide participation from engineering students. After that, the qualified teams from the zonal centres will compete at a national level competition to be organised by R&DE(E) at DRDO headquarters in New Delhi.

Robotics expo to be hold by DRDO lab

On the occasion of diamond jubilee celebrations of Defense Research and Development Organization (DRDO), Research and Development Establishment, Engineers (R&DE(E)), a key DRDO laboratory is organizing a Robotics and Unmanned Systems Exposition (DRUSE) for the students of the nation.

R&DE(E) will conduct zonal level competitions at six different zonal centers (Bengaluru, Pune, Tezpur, Jodhpur, New Delhi and Kolkata) between March 24 and April 15 in 2018. Teams who will qualify the zonal level competition will then compete at the national level competition which will be held at the DRDO headquarters in New Delhi.
