

## **REMOCON**

In the event of a radiation emergency, presents a significant challenge to responders, potentially decreasing their operational efficiency. During rescue operations, teams involved in disaster management are tasked to manage sites affected by radioactive contamination. This poses a risk not only to the affected individuals but also to the health of responders. It is therefore crucial to initiate prompt emergency medical management process for both the victims and the responders. INMAS has developed "REMOCON," a self-decontamination wipe for radioactive contamination that caters extensive benefits for personal decontamination. REMOCON R&N Skin Decontamination Wipe is an innovative and highly effective product designed to rapidly and efficiently remove hazardous contaminants from the skin, offering vital protection to individuals exposed to radiological threats.

**Dimensions:** Each wipe measures **17 cm x 20 cm**, offering ample coverage for effective decontamination and packed in airtight packet.

**Applications:** Designed for soldiers, victim and first responders in radiation emergency scenarios.
